VISITORS GUIDE

TRAMWAY
HERITAGE CENTRE

WELCOME TO THE TRAMWAY HERITAGE CENTRE

The Tramway Heritage Centre was established in 1971 and is located on the site of the former Bylands Railway station on the Heathcote Junction to Bendigo railway. We have over 50 trams in our collection.

We are currently in the process of upgrading our Visitor Centre & Terminus Gallery and other various displays and apologise for any inconvenience.

Head over to the Exhibition Goods Shed to view an assortment of trams from the horse & cable car era up to various electric trams and workshop area. View more of our collection in No. 1 & No. 2 sheds. Photography is welcome here.

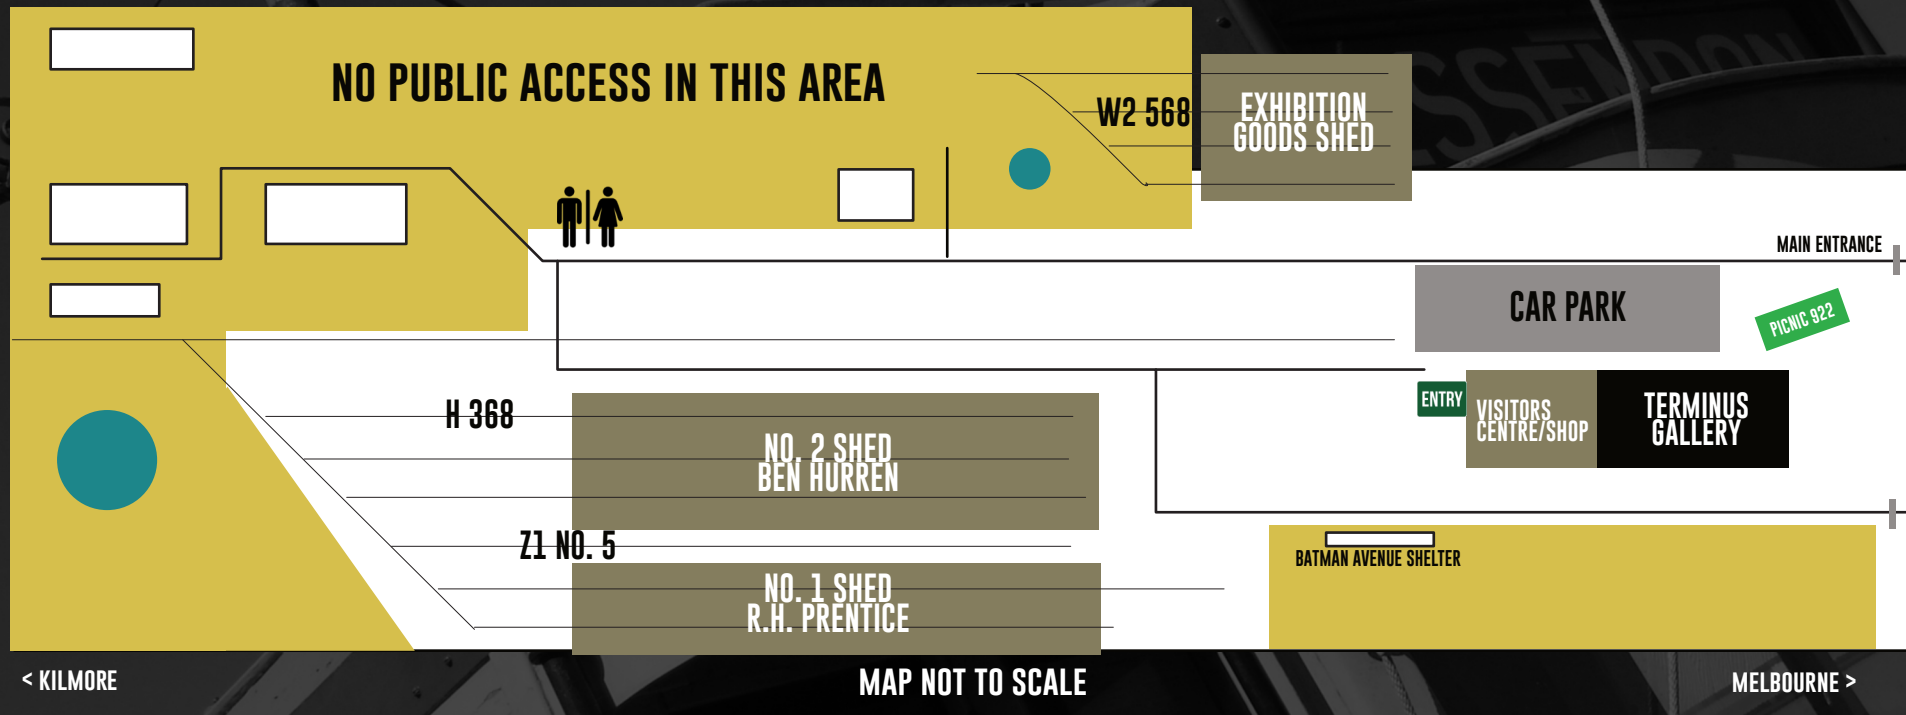

With safety in mind, we ask our visitors to not enter any areas that are not open to the public, unless with an Authorised Team Member. As this is a rural museum, we ask you to be mindful of any livestock and snakes.

Please do not enter any tram that has all doors closed!

PICNIC 922

EXHIBITION GOODS SHED

This Heritage Listed Building constructed for the 1888 Melbourne Centennial Exhibition, houses some of our Cable Car collection, the famous Malcolm tram, W3 667 as featured in the mini-series "The Pacific", various displays and a tram restoration workshop.

NO. 2 SHED - BEN HURREN

An interesting collection of trams live in this shed, from our smallest to some of our most unique. Take your time to explore.
